Great news! A stylish printer in your iMac colour

Your iMac or Power Macintosh G3 says a lot about the way you like to work. Now the OKIPAGE 8iM puts that style statement on paper. With razor-sharp graphics you can print on a variety of paper types and sizes. Just plug it into your Mac to start producing stunning documents.

Choose a colour

All you've got to do is choose what colour OKIPAGE 8iM you'd like. It comes in all the translucent iMac shades: strawberry, lime, tangerine, grape and blueberry. It's the printer your iMac has been waiting for.

Small on desk space

OKIPAGE 8iM occupies minimum space on your desktop sharing the beautiful colour combination with your iMac. Not only is the OKIPAGE 8iM compact but it provides 8ppm print speed with true 600 dpi resolution. Suitable for your private or personal business use.

Connectivity

Connecting the OKIPAGE 8iM to your iMac is as easy as you'd expect. There's a USB adapter for your iMac. plus a conventional RS422 Apple serial port.

More money saving innovations

To save more money the toner and drum units are separate. This avoids paying to replace components until they have been completely utilised.
